WORLDWIDE DIVERSIFIED HOLDINGS, INC.
NOTES TO FINANCIAL STATEMENTS
March 31, 2020

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

Worldwide Internet, Inc. (the "Company") was incorporated originally as August Resources IV, Inc. on September 1, 1998 in the State of Florida. In 2001 the Company changed its name to Eastern Frontier Corp. On March 30, 2006 the Company changed its domicile from Florida to Nevada and changed its name to Acellus Communications, Inc. On December 11, 2008 the Company changed its name to Worldwide Internet, Inc. and on the same date reversed its stock in the ratio of 1,000 to 1. On December 8, 2014 the company changed its name to Worldwide Diversified Holdings, Inc. Effective January 3, 2020 the company reversed its stock in the ratio of 50,000 to 1. The Company is now focused on creating a diversified holding company for its business operations and investment holdings.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fair value of financial instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification (“Paragraph 820-10-3537”) to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1 Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2 Pricing inputs other than quoted prices in active markets in Level 1, which are either directly or indirectly observable as of the reporting date. Level 3 Pricing inputs that are generally observable inputs and not corroborated by market data. The carrying amount of the Company’s financial assets and liabilities, such as cash, prepaid expenses and accrued expenses approximate their fair value because of the short maturity of those instruments. The Company’s notes payable approximate the fair value of such instruments based upon management’s best estimate of interest rates that would be available to the Company for similar arrangements at March 31, 2020.

Equipment

Equipment is recorded at cost. Expenditures for major additions and betterments are capitalized. Maintenance and repairs are charged to operations as incurred. Depreciation of equipment is computed by the straight-line method (after taking into account their respective estimated residual values) over the assets estimated useful life of three (3) or seven (7) years. Upon sale or retirement of equipment, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in statements of operations.

Impairment of long-lived assets

The Company follows paragraph 360-10-05-4 of the FASB Accounting Standards Codification for its long-lived assets. The Company’s long-lived assets, which includes computer equipment is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. The Company assesses the recoverability of its long-lived assets by comparing the projected undiscounted net cash flows associated with the related long-lived asset or group of long-lived assets over their remaining estimated useful lives against their respective carrying amounts. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets. Fair value is generally determined using the asset’s expected future discounted cash flows or market value, if readily determinable. If long-lived assets are determined to be

recoverable, but the newly determined remaining estimated useful lives are shorter than originally estimated, the net book values of the long-lived assets are depreciated over the determined remaining estimated useful lives.

Commitments and contingencies

The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

Revenue recognition

The Company follows paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company will recognize revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the product has been shipped or the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured.

Income taxes

The Company follows Section 740-10-30 of the FASB Accounting Standards Codification, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the fiscal year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the fiscal years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Income and Comprehensive Income in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards that addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. The Company had no material adjustments to its liabilities for unrecognized income tax benefits according to the provisions of Section 740-10-25.

Net income (loss) per common share

Net income (loss) per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. The weighted average number of common shares outstanding and potentially outstanding common shares assumes that the Company incorporated as of the beginning of the first period presented.

There were no dilutive shares outstanding as of March 31, 2020.

Cash flows reporting

The Company adopted paragraph 230-10-45-24 of the FASB Accounting Standards Codification for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method (“Indirect method”) as defined by paragraph 230-10-45-25 of the FASB Accounting Standards Codification to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments. The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides information about investing and financing activities not resulting in cash receipts or payments in the period pursuant to paragraph 830-230-45-1 of the FASB Accounting Standards Codification.

Subsequent events

The Company follows the guidance in Section 855-10-50 of the FASB Accounting Standards Codification for the disclosure of subsequent events. The Company will evaluate subsequent events through the date when the financial statements were issued. Pursuant to ASU 2010-09 of the FASB Accounting Standards Codification, the Company considers its financial statements issued when they are widely distributed to users, such as publishing them on OTCMarkets.com.

Recently issued accounting pronouncements

ASU 201006, Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements.

This ASU affects all entities that are required to make disclosures about recurring and nonrecurring fair value measurements under FASB ASC Topic 820, originally issued as FASB Statement No. 157, *Fair Value Measurements*. The ASU requires certain new disclosures and clarifies two existing disclosure requirements. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value

measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years.

ASU 2011-04, *Fair Value Measurement (Topic 820) ± Amendments to Achieve Common Fair Value Measurement Disclosure Requirements in GAAP and IFRSs*

This ASU supersedes most of the guidance in Topic 820, although many of the changes are clarifications of existing guidance or wording changes to align with IFRS 13. In addition, certain amendments in ASU 2011-04 change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments in ASU 2011-04 are effective for public entities for interim and annual periods beginning after December 15, 2011. The Company has an amount due it officers or the balance of loans and accrued compensation. Any advances and accrued salary is without interest.

NOTE 3 — GOING CONCERN

As reflected in the accompanying financial statements, the Company had net income of \$ 589,431 and net cash used in operating activities of \$ 542,461 for the three months ended March 31, 2020.

While the Company is operating and generating revenues, the Company's cash position may not be significant enough to support the Company's daily operations. Management intends to raise additional funds by way of a public or private offering. Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern. While the Company believes in the viability of its strategy to generate revenues and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 4 - ACCOUNTS PAYABLE

The Company's current accounts payable, as of March 31, 2020 is \$21,054. The accounts payable included payables to company service providers.

NOTE 5 - INVESTMENTS AND FINANCING

The company has \$21,457,324 in Ludvik Holdings, Inc. assets and \$8,600,000 in assets that were purchased for the issuance of Series C Preferred Shares and \$3,250,000 in GCHI Green Company Holdings, Inc. ("GCHI") common, preferred shares and Notes. The company issued 10,000,000 shares of Series C Preferred Shares in exchange for additional assets effective August 3, 2019.

In December 2014, the company acquired an interest in Lemaro Investments from Venerable Capital Corporation for \$300,000 consisting of a payment of \$40,000 in cash and a note for \$260,000. The company also paid additional \$25,000 in expenses to Venerable Capital Corporation. The company was provided audited statements of Lemaro Investments by Mayer & Associates, LLP. The statements indicated Lemaro Investments total capital and net worth of \$22,917,782 and total income of \$13,003,728 for the period ended November 30, 2014. As of December 31, 2014 the company recorded the investment at cost of \$300,000. The company also received a commitment for \$2,400,000 in financing subject to certain terms and conditions.

Venerable Capital Corporation has subsequently exercised its option under the Stock Purchase Agreement to exchange the assets back for the 26,000,000 Series C Preferred Shares and subsequently the assets are no longer included in the investments.

The company is working on replacing the financing commitment that it previously received from Venerable Capital Corporation.

The company issued a dividend to its shareholders of record on June 30, 2014. The dividend payable was one share of GHCI for every 100 shares of Worldwide. The shares have been distributed to the Company shareholders. GCHI has announced that it intends to list on the Canadian Securities Exchange or merge with a publicly trading company.

The company also announced that it would pay a dividend of one share of I-texts, Inc. common stock for every 100 shares of Worldwide. The company is working with the transfer agent for the distribution of the shares to the company shareholders.

The Company has retained an investment banking firm as its exclusive placement agent and financial advisor in connection with acquisition financing of up to \$30,000,000 in debt and a \$30,000,000 firm commitment underwritten public offering on a major exchange. The Company must meet various conditions, which it believes are reasonable and attainable in due course of business. The planned public offering is subject to the Company's successful auditing and acquisition of its current target businesses.

NOTE 9 – INCOME TAX

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences

between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

As of March 31, 2020, the Company had net operating loss carry forwards of approximately \$54,391 that may be offset against future taxable income from the year 2020 to 2032. No tax benefit has been reported in the March 31, 2020 financial statements since the tax benefit is offset by an allowance of the same amount.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards for Federal Income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carry forwards may be limited as to use in future years.

NOTE 10 – SUBSEQUENT EVENTS

On March 27, 2020 the company entered into an agreement to acquire 100% of the outstanding common shares of Houston Natural Resources, Inc (“HNRI”). The transaction provides for agreements for the payment of \$25,000 in addition to the issuance of 9,042,333 common shares at the closing bid price of \$2.00 per share and the issuance of 4,000,000 Series D preferred shares. The company’s subsidiary HNR Oil Services LLC owns a water treatment and disposal facilities that exceed all state and federal regulatory requirements, provide maximum environmental protection and will generate multiple streams of revenue for the company via the saltwater disposal and byproduct remediation.

HNRI has audited statements and detailed independent appraisals of the assets. The Company is focused on completing audited statements for the last two years. This will provide for the Company to be able to up-list on a major exchange.

The company has formed Worldwide Diversified Holdings, Inc., in the State of Delaware, (“Worldwide DE”) to exchange the current assets for common shares of Worldwide DE. The company would then have two wholly owned subsidiaries. The Series D Preferred agreement includes the option to exchange the 100% of the HNRI common shares for issued Series D Preferred shares, on or before June 30, 2020. Ludvik Holdings, Inc maintains voting control of the company. The company has added Donald H. Goree, Donald W. Orr and Clayton H. Goree as new members of the board of directors as part of the transaction.

The company has not yet issued the common or preferred shares pursuant to the transaction but expects it to be completed on or before May 31, 2020 and the completed transaction to be accounted for in the second quarter.
